Mr. Wisner:

a. Referred to recent reports received indicating a Communist build-up in North Korea and stated that he had discussed this with Gen. Balmer at a recent POCC meeting to the end that some publicity should be given to the build-up in order that we would not "be caught with our psychological pants down". In this connection, Mr. Wisner also noted that (1) State was against any such publicity; (2) the Joint Chiefs wished to discuss this matter further. In connection with (1) above, the Director stated that he saw no reason for the need of State Department approval and asked Mr. Wisner to give him a short memorandum on this matter, which he would use as a basis for discussion at today's PSB luncheon.

b. Briefly discussed our efforts to "play down" the bacteriological war campaign and noted that State was against this, based on reports received from the various embassies. In connection with this campaign, Mr. Wisner noted an article in the London Chronicle which he left with the DCI. The Director stated that he would look into this problem.

c. Referred to the memorandum received yesterday from PSB concerning the disbandment of a certain panel and stated that this panel should not only be maintained but, in fact, should be "hotted up".

Noted that the SCAG group had completed its report and since AFSA considered this report to be an internal matter had refused to make a copy available to CIA. After some discussion wherein it was noted that we had contributed financially to the preparation of this report, the Director asked Mr. Becker to call Gen. Canine in his name and request that a copy be furnished this Agency.
